EASTERN BRANCH AT SOOKUMPOO

## "A BLESSING TO COLONY" H.E. THE GOVERNOR'S LIBERAL DONATION

The Eastern Branch of the Tung Wa Hospital at Sookumpoo was officially opened this morning by His Excellency the Governor, Sir Cecil Clementi, K.C.M.G., LL.D., M.A., before a large and representative gathering of European and Chinese residents.

One feature attending the ceremony, and to which Mr. M. K. Lo, Chairman of the Board of Directors, drew particular attention, was the coincidence that the parent hospital was opened in 1872 by the then Governor, Sir Richard Macdonnell. The foundation stone was also laid by him in 1870.

His Excellency, Sir Cecil Clementi, has also been privileged in like manner; the foundation stone of the new hospital having been laid by him last year and the hospital was to-day opened by him.

CHAIRMAN'S SPEECH

Addressing the gathering in his capacity as Chairman of the Board of Directors of the Tung Wah Hospital, Mr. M. K. Lo said: Your Excellency, Ladies and

Gentlemen,—On behalf of the Directors of the Tung Wah Hospital I have the honour to tender to His Excellency the Governor Sir Cecil Clementi, our grateful thanks to him, for honouring us with his presence to-day, and for consenting to perform the opening ceremony of this new Hospital. On their behalf I also thank Lady Clementi and our other honoured guests for their kind presence, and we extend to them a warm welcome.

A LUCKY COINCIDENCE The foundation stone of this Hospital was laid by His Excellency the Governor on May 1928. His Excellency then reminded us that the foundation stone of the parent Hospital was laid on April 9, 1870, by the then Governor Sir Richard Macdonnell The formal opening ceremony of the parent Hospital, which took place on February 14, 1872, was also performed by Sir Richard. The introductory passages of his speech on that occasion, as reported by the Press of that day, seem to me to constitute such a happy instance of "history repeating itself" that I venture to quote them in full. They are as fol-OWS:

Ever solicitous of promoting the welfare of the Colony, His Excellency has been unsparing in his support of worthy objects. This Hospital, like its parent, is under a very great debt of gratitude to His Excellency for his sage counsel and potent support, and for his ever kind and indulgent consideration of its numerous problems. ### **BULLDOG DRUMMOND** AS "TALKIE"

COLMAN HAS RICH COMEDY ROLE

FIRST SHOW TO-MORROW

Showing Ronald Colman to his public as a comic actor of rare abilities as well as a romantic hero. "Bulldog Drummond," Samuel Goldwyn's version of the famous British stage melodrama of several years ago, comes to the Queen's Theatre to-morrow. This is Colman's second individual starring picture and his first chance at a comedy role since he appeared in American pictures. "Beau Geste," "The Dark Angel," "The Night of Love," "The Rescue" have all exploited only his dashing handsomeness and ability in emotional act-

Mr. Goldywn has supplied a brilliant cast to support his star in "Bulldog Drummond." Joan Bennett, daughter of Richard Bennett and a well known actress in her own right, appears opposite Colman in her first motion picture. The villainy of the torturing criminals of the story is supplied by Montagu Love and Lawrence Grant, masters of the menacing and sinister. Lilyan Tashman, fresh from a character triumph in "The Trial of Mary Dugan," appears as the Villainess who is Bulldog Drummond's 'most dangerous opponent. Claude Alliaster, Wilson Benge, Adolph Milar and Gertrude Short carry off well adapted character

The direction of "Bulldog Drumwas in the hands of F. Richard Jones, one of Hollywood's veteran directors, recently noted for his handling of Douglas Fairbanks' "The Gaucho."

The Story The story, built around the adventures which befell a young demobilized British officer in search of excitement after the war, made one of the greatest melodramas of all time both in book form and as the thriller sensation of both the American and British stages some years ago. The torture-lust of Dr. Lakington and the masterful criminclity of his confederate, Peterson, provide a harrowing background for the love story of Bulldog Drummond's courageous devotion to Phyllis and her unfortunate

The photography of "Bulldog Drummond" is said to be one of the finest examples of modern camera work and atmospheric settings which Hollywood has yet produced. At every turn, the emotion of the succession of thrilling events is reflected in the lights and shadows and perspectives of the back-

Will its career of usefulness be one of continuous improvement and expansion, unhampered by lack of funds; or will it be curbed and impaired by ever recurring financial deficits? This question cannot but weigh heavily on our minds. The answer to that question depends chiefly on the attitude of the whole Colony, and particularly of the Chinese community. The Hospital has a most important mission to fulfil, but the success of that mission would be assured if it received the goodwill, co-operation and generous sup-

port of the whole community, for which I earnestly plead. With that help, I look to the future with every confidence and equanimity. Ladies, and Gentlemen, I will now bring my speech to a close with the fervent prayer that the hope expressed by His Excellency last year that

### NORMA SHEARER DIVULGES SECRET

Norma Shearer writes in "Home Chat" that to keep slim is the object of every Hollywood film star. One of the most beautiful and slimmest of them divulges their diet secret for you to try for yourselves!

In Hollywood (she says) we have two main topics of conversation: "Talkies" and diets. If we are not actually dieting, we know that at any moment it may be necessary for us to reduce our weight a pound or so, and to do ". quickly! So we pay great attention to any diet details that our triends may feel inclined to reveal for our benefit.

I am positive that if one could | This is the diet I want to pass near, all at once, the conversations on to you. going on at a hundred crowded You can start the eighteen tables in Hollywood's famous days' Montmartre Restaurant, any day at right through without stoplunch-time, or at fifty equally ping your ordinary work or making crowded tables at any studio cafe any alteration' in your everyday during the lunch hour, one would life. Isn't that rather marvellous, find "Diet" being vigorously dis- apart from the beneficial results of cussed at all of them. For it is the diet: almost a mania in Filmland.

HOW.

This is natural, of course, because our figures are our livelihood. More than that, we realise how cruel the camera can be. It puts weight on everybody. Even the alimmest people look plumper than they really are. So what chance have those whose proportions are on the generous side?

For our own sake, from a work standpoint, we have to safeguard our appearance all the time. And I believe honestly that we have found we feel fitter, healthier, and more full of energy in every way when we watch our meals carefully and eat enough, but never too

In Hollywood, hostesses, and waiters in restaurants, have ceased to be astonished if someone asks for a dish of lettuce and an orange or two, making an entire meal of these simple foods.

Although I have not indulged in definite diet myself, I always watch my food carefully, and if I have lots of sweet things or icecream one day I take care to go without anything sweet the day after.

Well-known Diets

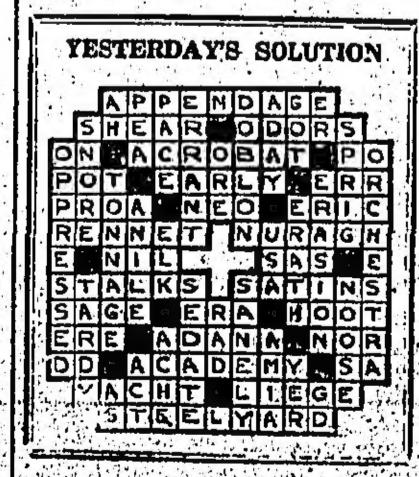

Of course, there is the wellknown lamb chop and pineapple diet. There is the milk and potato diet. There is the orange juice diet. Now, I am a great believer in this orange juice diet; but it has a drawback. The girl who goes in for it should stay in bed for three or four days or longer during which she lives on nothing but orange juice.

It is weakening, naturally, to take Inothing but orange juice, every two ((( or three hours; for some days on end. To attempt to do one's ordinary work at the same time is foolish. To stay in bed is the only wise way. Not only does this form of diet rest the digestive organs in marvellous way, but it also takes off weight at the rate of anything from eight ounces to one pound a day. You feel-hungry, I am told, during the first twenty-four hours; then you cease to have any desire for solid food and are quite happy with your orange juice.

I have many friends in Hollywood who go on a six days' orange juice diet every six weeks, and eat what they like, in reason, the rest of the time. This keeps their figures in good shape. Other film girls have an orange diet once a week. But I don't believe in this so much, because they are inclined to eat too heavily the day after, not having got over the "hungry" stage.

The Eighteen Days' Diet There is one fine diet that Hollywood follows with true faith and appreciation. It is called the Eighteen Days' diet, and is the invention of a well-known American medical man.

Ethel Barrymore, I think, was the first prominent stage star to try it. The diet reduced her weight so marvellously and left her feeling so well that she passed it on to her
